

VMOTO LIMITED
ABN 36 098 455 460

HALF-YEAR FINANCIAL REPORT
for the six month period ended 30 June 2015

DIRECTORS' REPORT

The Directors present their report together with the financial report of Vmoto Limited ("Vmoto" or "the Company") and its controlled entities (the "Consolidated Entity") for the six months period ended 30 June 2015 and the auditor's review conclusion thereon:

1. Directors

The Directors of the Company at any time during or since the end of the half year are:

Name	Period of Directorship
Mr Charles Chen <i>Managing Director</i>	Appointed 5 January 2007
Mr Ivan Teo <i>Finance Director</i>	Appointed 29 January 2013
Mr Olly Cairns <i>Non-Executive Director</i>	Appointed 1 September 2011
Mr Kaijian Chen <i>Non-Executive Director</i>	Appointed 1 September 2011
Ms Shannon Coates <i>Non-Executive Director</i>	Appointed 23 May 2014

2. Results

The net profit for the Consolidated Entity for the six month period ended 30 June 2015 was \$1,010,532 (six month period ended 30 June 2014: \$210,760) after income tax of \$440,233 (six month period ended 30 June 2014: nil). This represents an overall improvement of 379% compared to the net profit after tax of \$210,760 recorded for the six month period ended 30 June 2014.

The Company notes that this net profit figure includes non-cash expenses of A\$113,316 as a result of the issue of shares to consultants and tax expenses of \$440,233, which was offset against carry forward tax losses previously recognised as deferred tax assets. The underlying net profit for the six month period ended 30 June 2015 adding back these non-cash expenses was \$1,564,081.

The following table provides a reconciliation between the statutory NPAT and underlying NPAT figures for 1H15:

Statutory NPAT for 1H15	A\$1,010,532
<i>Add back non-cash expenses:</i>	
Share based expenses	A\$113,316
Tax expense adjustments related to carry forward tax losses being utilised in 1H15, which deferred tax assets were previously recognised in financial year ended 31 December 2014	A\$440,233
Underlying NPAT for 1H15	<u>A\$1,564,081</u>

Directors believe this information is useful to provide investors with transparency on the underlying performance of the Company.

DIRECTORS' REPORT

3. Review of Activities

The consolidated revenue for the six month period ended 30 June 2015 was up 57% to \$24,891,217 (six month period ended 30 June 2014: \$15,862,018).

During the six month period ended 30 June 2015, the Company increased its distribution footprint in China, which as at 30 June 2015 comprised a total of 43 outlets through a combination of its own retail outlets and third party distributors across China. During the period, the Company distributed a total of 41,503 units (six month period ended 30 June 2014: 36,705 units) as it continued ramping up its production across its domestic and international sales channel. Of these sales 23,253 units were sold to PowerEagle in addition to 11,039 of Vmoto's own units sold through Vmoto's comprehensive distribution network and retail stores, and 7,211 own units sold to other international distributors and customers.

The Consolidated Entity achieved a gross profit margin of 16.2% for the six month period ended 30 June 2015 (six month period ended 30 June 2014: 15.5%). The improved margin reflected the benefits of economies of scale as the Company continues to ramp up its production of electric two-wheel vehicle products, especially those to international customers. The Company is confident that the gross profit margin will continue to increase with further economies of scale generated as production of units at Vmoto's manufacturing facilities in Nanjing, China (the "Nanjing Facility") increases in anticipation of higher sales in the coming financial years.

The Company's increasing revenues and profits are a clear demonstration of the growing traction Vmoto brands are achieving in both the Chinese and international markets. International sales are continuing to increase as the Company is now recognised for its premium electric scooters and is delivering on its strategy off the back of this reputation.

Over the six month period ended 30 June 2015, the Consolidated Entity's net assets have increased by 43.1% to \$35.5 million.

Vmoto has continued with its strategy of design, manufacture and distribution of high quality "green" electric powered two wheel vehicles and a range of western designed electric two wheel vehicles from its wholly owned Nanjing Facility.

The Company's international market continued to increase during the six month period with existing and new customers seeking to place new orders or agreements with the Company. During the six month period numerous international customers visited the Nanjing Facility including distributors from North America, Ecuador, Sri Lanka, Turkey, Switzerland and New Zealand. The Company also signed a distribution agreement with a United Kingdom company to distribute, stock and market the Company's Vmoto and E-max range of electric scooters for the United Kingdom and Irish markets.

The Chinese market remained strong during the six month period, with a sales network of 43 outlets, including third party distributors and company owned retail stores. China continues to be the Company's largest market.

The Company commenced discussions with PowerEagle with a view to entering a new OEM agreement at the end of 2015. A new agreement is anticipated to be entered into in the coming months.

The Company is in the process of establishing an online based retail sales platform that will open up a new sales stream for its products. This is progressing well and is expected to be operational and generating online sales by the end of 2015.

During the six month period ended 30 June 2015, the Company completed a 1 for 10 share consolidation and successfully raised A\$8.9 million through an oversubscribed placement to existing and new institutional and sophisticated investors in Australia and the United Kingdom. The Company also received \$117,000 from the exercise of ESOP options.

As at 30 June 2015, the total operating facility drawn down was RMB25 million (approximately A\$5.2 million) and the total undrawn operating facility was RMB9 million (approximately A\$1.9 million).

As at 30 June 2015, the Company had cash of A\$11.1 million.

DIRECTORS' REPORT

COLLABORATIONS, TENDERS AND JOINT VENTURE OPPORTUNITIES

Vmoto continues to receive significant interest for potential collaborations from new international customers. Among these are discussions with a significant European supermarket group that has over 300 stores and a high-tech North American company developing shared transport and communication systems for electric vehicles and a New Zealand company to OEM manufacture electric two-wheel vehicle products wholly designed by its customers.

Discussions with these and other parties for potential orders or collaboration are ongoing and further developments will be announced as and when they occur.

CORPORATE

During the half year, the Company issued a total of 6,725,669 shares pre the share consolidation, comprising 1,175,669 shares to consultants of the Company in consideration for services provided, 2,000,000 shares to Directors following the vesting of performance rights and 3,550,000 shares to employees on the exercise of ESOP options exercisable at \$0.03 each on or before 23 November 2015.

Post the share consolidation, which was completed on 4 June 2015, the Company issued a further 19,780,000 Shares at \$0.45 per Share to raise \$8.9 million (before costs), 35,000 Shares following the exercise of ESOP options (exercisable at \$0.30 each on or before 23 November 2015), 266,668 shares to two Directors following the vesting of performance rights and 38,095 shares to a Director in lieu of Director fees, as approved at the Company Annual General Meeting held on 21 May 2015.

OUTLOOK

The six month period ended 30 June 2015 was another productive period for Vmoto as sales increased across the domestic and international sales channels.

The Company expects to see further growth for the second half of the year as it is historically stronger compared to the first half. Vmoto continues to grow in line with management expectations as more orders are received and new domestic and international distributors and customers continue to visit the factory to discuss and finalise orders and agreements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES

The half year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full financial report.

The half year financial report should be read in conjunction with the Annual Financial Report of Vmoto Limited for the year ended 31 December 2014.

It is also recommended that the half year financial report be considered together with any public announcements made by Vmoto Limited and its controlled entities during the half year ended 30 June 2015 in accordance with the continuous disclosure obligations arising under the Corporations Act 2001.

(a) Basis of Preparation

The half year financial report is a general-purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134 "Interim Financial Reporting".

The Directors have prepared the financial statements on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business. The Directors believe this to be appropriate for the following reasons:

- the Consolidated Entity has a significant working capital surplus;
- the Consolidated Entity has long term supply agreements and demand for its electric powered scooter products is increasing. As the units increase, this will further reduce the cost of goods manufactured due to achieving higher levels of economies of scale, which will further improve the gross profit margins;
- the Consolidated Entity achieved a profit during the period;
- the Consolidated Entity's Stage 1 and 2 of the Nanjing Facility have been completed and have been used as security for its existing operating facility. As at the date of this report, RMB9 million (approximately AUD1.9 million) of the operating facility is still available for draw down if required;
- the Consolidated has successfully raised \$8.9 million of capital to fund growth;
- the Directors have prepared cash flow forecasts that indicate the Consolidated Entity will be cash flow positive for the year ending 31 December 2015 and will enable the Consolidated Entity to pay its debts as and when they fall due.

At the date of this report and having considered the above factors, the Directors are confident that the Consolidated Entity and the Company will be able to continue operations into the foreseeable future. The financial report does not include adjustments relating to the recoverability and classification of the recorded assets and liabilities amounts that might be necessary should the Consolidated Entity and the Company not continue as going concerns.

(b) Significant changes in accounting policies

The half year consolidated financial statements have been prepared using the same accounting policies as used in the annual financial statements for the year ended 31 December 2014.

The Group has adopted all the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are relevant to their operations and effective for the current half year.

The adoption of these amendments and interpretations does not have any material impact on this half year financial report.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(c) Principles of Consolidation

The parent entity and its subsidiaries are collectively referred to as the “Group”. The parent of this Group is Vmoto Limited. Entities over which the parent (or the Group) directly or indirectly exercises control are called “subsidiaries”. The consolidated financial statements incorporate the assets, liabilities and results of all subsidiaries. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The assets, liabilities and results of subsidiaries are fully consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between group companies are fully eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. SEGMENT REPORTING

The continuing operations of the Consolidated Entity are predominantly in the electric two-wheel vehicle manufacture and distribution industry. Reported segments were based on the geographical segments of the Consolidated Entity, being Australia and China. The management accounts and forecasts submitted to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance are split into these components.

The electric two-wheel vehicles segment is managed on a worldwide basis, but operates in two principal geographical areas: Australia and China. In China, manufacturing facilities are operated in Nanjing. The following table presents revenue and profit or loss in relation to geographical segments for the six month periods ended 30 June 2015 and 30 June 2014:
